WHAT WE FOUND?
Our review of $317 million vendor disbursements processed during July 2009 found that 99.85% of invoices were paid only once. Of the 6,708 invoices processed during July 2009, we identified 10 potential duplicate payments made to vendors totaling $29,441.

Our review of similar employee and vendor addresses has been completed. In March 2009, we identified 23 potential employee/vendor address matches and submitted them to Human Resources for further evaluation. Human Resources determined that 1 was not a valid match and 22 were not a conflict.

No findings resulted from the other CAAT routines performed this month.

WHY IS THIS ANALYSIS IMPORTANT?
Each month, the Internal Audit Department conducts a variety of performance reviews of vendor payment and payroll activity utilizing Computer-Assisted Audit Techniques (known by the acronym CAAT). Our objectives are to analyze the selected vendor payment and payroll data to identify inappropriate payment activity.

The CAAT routines allow us to identify and recover inappropriate payments, such as duplicate payments made to vendors doing business with the County. To date, we have identified $870,519 in duplicate payments of which the Auditor-Controller has collected $825,518 or 98%.

BACKGROUND INFORMATION
CAATS (Computer Assisted Audit Techniques) are automated queries using a proprietary industry recognized software product applied to large amounts of electronic data searching for specified characteristics. Resulting exceptions or findings are forwarded to the appropriate department for validation and/or resolution.

CAATS - Cited as a Best Practice by the Institute of Internal Auditors
